

Simply compact!

Horizontal PCB terminal block with
Push-In spring connection

PTS – the efficient solution for connecting your PCB

The new PTS series with spring connection convinces with its large clamping space and extremely small external dimensions. The Push-In connection allows comfortable and quick wiring of rigid and stranded conductors.

Opening the terminal point takes place by pushing the ergonomic release button.

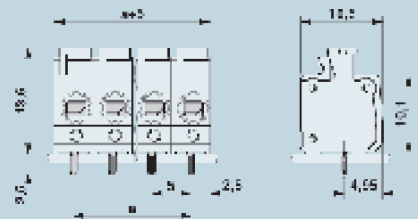

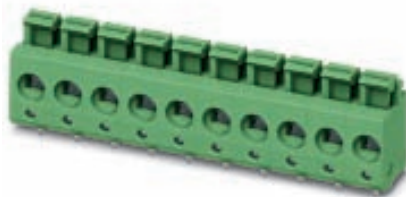

Technical data

- Current: 12 A / 1.5 mm²
16 A / 2.5 mm²
- Voltage: 400 V
- Conductor: 0.2 to 2.5 mm²
- Pitch: 5.0 and 7.5 mm

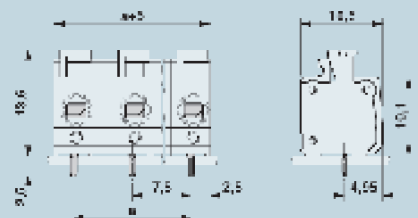

Product features

- Small external dimensions
- Ergonomic release button
- Integrated test connection
- Conductor cross-sections up to 2.5 mm²
- Optional labeling
- Can be aligned in pitch

PTS 1,5/...-5,0-H

PTS 1,5/...-7,5-H
